
GREEN OPERATORS “GO” Program: Request for GO Decal Application Instructions

The Green Operators (GO) program provides incentives to operate a more emission-efficient vehicle with a 2007 and newer engine and recognizes partners for achieving goals that reduce air pollution and greenhouse gases associated with the transport of goods within the Port of Virginia.

Eligible Applicants

- The Green Operators (GO) Program provides incentives to operate a more emission-efficient vehicle with a 2007 and newer engine and recognizes partners for achieving goals that reduce air pollution and greenhouse gases associated with the transport of goods within the Port of Virginia.
- Carriers must provide drayage truck services to the Virginia Port Authorities Hampton Roads facilities. Proof of Port service can be established via a Port of Virginia ID Card. Please send a copy (front and back) as an attachment to your application.
- Documentation in the form of a DMV vehicle registration or an invoice must be sent with the application verifying the make, model, and year of the truck in question.

General Requirements for Applications

- Incomplete applications will be returned.
- Complete applications will be reviewed and upon approval a sticker verifying the owner-operator as a GO carrier will be sent.
- Type or print legibly all items except the signature in Section III.
- Printed applications must be in black or blue ink.
- If you need space for additional information, attach additional sheets of paper. Write the owner's name on each attached sheet and attach to the application.

If applying for more than one truck, please provide the information below for each truck requested.

Complete and Submit Application to:

A special thanks to our funding partners

The Green Operators Program developed from a Virginia Port Authority pilot program that provided trucking companies with low-cost financing to purchase diesel trucks with more emission-efficient engines or rebates to retrofit older models for efficiency. The Virginia Department of Environmental Quality, through grants from the US Environmental Protection Agency's National Clean Diesel Campaign Program and the American Recovery and Reinvestment Act, has committed funding to expand the programs reach and impact.
